

CUPCAKES FOR LIFE?!

WHAT'S THIS ALL ABOUT?!

Today in America (and every-day for that matter), close to 4,000 innocent human beings will lose their lives to abortion - before they're ever born. Cupcakes for Life exists to remind students that for every ten children born alive in this country, three more are aborted - without ever celebrating a birthday or enjoying something as simple as a cupcake. Just in case you think abortion isn't that bad (or have never shuddered at the fact that, for the first 9 months of your life, you could have been legally killed!), consider this simple equation:

CUPCAKESFORLIFE.COM

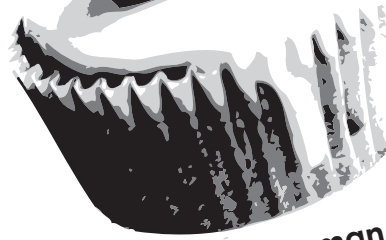

A) Embryology textbooks the world over **universally confirm that life begins at fertilization.**

B) Human parents **ALWAYS** produce human offspring.

C) Therefore, **every single abortion**, no matter when, where, why, or how it's performed, **kills an innocent human being!** There is simply no debating that fact.

The case against abortion is **OVERWHELMING**, but it won't quite fit on a flyer. Thankfully, there's a website called **Abort73.com**. The evidence will astonish you! MySpace.com/Abort73
